

SmartNitrogen

**Controlled Release Fertilizer**

A *smarter* source of nitrogen.

A *smarter* way to grow.

# Facts from the Field

May 2007

## The Weather and Corn Planting

### “Plant your Corn - Apply ESN Later”

**Fact:** Depending on your soil type and moisture levels planting can be delayed and / or should be delayed following certain nitrogen applications.

#### Not with our ESN product!

ESN offers you and the grower the following:

- ✓ Can be post-applied to corn safely and has already been proven on several thousands of acres in the corn- belt!
- ✓ Provides a time savings, more acres per day broadcasting versus other N - applications.
- ✓ Fuel savings – less fuel consumption
- ✓ Less damage to plants (root pruning), less compaction and safer to apply.
- ✓ Non-phytotoxic (non-burning), post –applied source of nitrogen for corn.
- ✓ ESN offers protection to your nitrogen investment.
- ✓ The only product that works on all 3 loss mechanisms and releases over 60-90 day time frame when the corn needs it.

**North of I-80 ESN** can be applied up to the 4 leaf stage on corn.

**South of I-80 ESN** can be applied up to the 5-6 leaf stage on corn.

**Maximize your corn yields today, plant it on time and provide it with the Smart Nitrogen for season-long feeding when the crop needs it!**

**Contact Agrium Advanced Technologies  
for your needs now!**

### How can we help?

To make ESN a part of your spring nitrogen program, contact an authorized retailer or Agrium representative. For technical information, our agronomists can be reached during business hours.
